John W. Davis ambansator to Great Britain, whose name remained on the list of candidates to the last was being talked of for the vice presidential momination too, but the argument used against it was that he came from a state toe close to Chie.

Vice president Marshall issued this statement regarding the nomination of novernor Cox.

"I know governor Cox. I know he has never falled to follow the banner of democracy. He has Democrat. I know him to he a fearliss and courageous executive. When the storm and stress of the convention have subsided all loyal delegates will say our party's cause, our country's good are safe in his bands.

When the vice presidential nomination was being talked over among the Wisconsin delegation it was decided that if Jessph E. Davis was placed before the convention the speech would be made by Mrs. Eward R. Bowler of Sheborgan.

out the word it was "for whomever
governer Cax wants."

Dried R. Francis of St. Louis, former ambassador to Russia, was being
talked of and had not decided whether
he wanted his mame presented. If he
decided to let his name go before the
convention it was plasmed to have
former governor Gardner of Missouri
presented his numination.

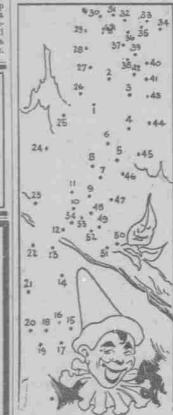

The talk which was almost unantminally heard on the convention floor
was that the decision centered about

HERE is hardly a motorist who hasn't at some time or other in his experience had a tire dealer attempt to sell him a tire by representing it as the fastest seller in

More attempts are probably made to sell tires by playing to the motorist's alleged weakness for "crowd of buyers" than by any other known method of selling.

The experienced motorist, of course, refuses to surrender his individual judgment to any crowd or mass of whatever size.

Too often he has seen the results of accepting opinions at their face value, without first finding out what they are based on.

And you will find him going more and more to the dealer who has something to offer in support of his tires, other than "crowds of buyers" and "numbers of sales."

The opinion in favor of U.S. Tires is not based solely on the number of them in use.

Great as that number is, it is due to something besides clever arguments.

Thousands of motorists today are putting up with second choice tires because forced production is inconsistent with U.S. standard of quality.

The United States Rubber Company's enormous investment-greater than that of any concern in the industry-has always been aimed solely at quality.

Building a tire first and a market afterwards. Thinking of the individual user instead of the number of sales.

One of the reasons, perhaps, why there is now a scarcity of U. S. Tires.

If the time ever comes when U.S. Tires can be supplied to all, or nearly all, of the people who want them, they will still have more to recommend them than merely the largest following.
